Famine, Starvation  
Lot of Citizens of  
Occupied CountriesRaces in Danger While  
Germans Are Better  
Fed Than Before

London, Feb. 27.—(AP)—Famine and starvation are facing the occupied countries of Europe, which are being systematically pillaged by the Nazis to provide food for the German people and their armies, the Inter-Allied Information Committee declared today.

While hundreds of thousands in conquered lands are undergoing untold hardships, the Germans themselves are so well-fed, the committee said, that in some countries they are the principal suppliers of black markets—the illegal food centers where fantastic prices are charged for staples which only a few can buy. Ironically, dispatches from Switzerland reported the Germans were taking increasingly drastic measures to stamp out illicit trading in food and clothing. Five persons were said to have been executed in Germany or German-occupied territory during the past week for such offenses.

The Inter-Allied Committee, which represents every allied nation in London, said the German pillaging program, "masquerading as purchase," probably would bring starvation to 500,000 in Greece alone before winter ended. "One whole generation appears to be already doomed" in Greece, said the committee's 6,500-word report.

**French Race in Danger**  
In France, whence "every day trains loaded with food go to Germany," the report added, "the whole race is in danger."

Three sources were cited by the committee as the basis of its statements: German officials' pronouncements; articles in the German controlled press, and evidence obtained from persons escaped from occupied territories.

In some cases, the German people and their armies are living better than in pre-war days, the report said.

"Official rations," available in theory to all occupied nations, were reported "at their worst" in Greece, and "most nearly adequate in Czechoslovakia, where

Federal Assistance  
for Schools in This  
Defense Area Sought

Federal aid to schools effected by the location of the Green River Ordnance defense plant in this vicinity, will be discussed at a meeting which was today called by County Superintendent of Schools John Torrens. The meeting will be held at the Loveland Community House next Tuesday afternoon at 1:15 o'clock with superintendents and principals of schools affected in attendance.

Wilford F. Clapp, senior specialist on school facilities for the federal security agency, and Claude E. Vick of Springfield, assistant state superintendent of public instruction, will be present to lead the discussions and to assist in formulating a plan for securing aid for the schools which will experience increased enrollment. Representatives of schools in Lee, Bureau and Whiteside counties will attend the gatherings, as well as members of school boards located close to the defense area.

## The War Today!

By DeWITT MacKENZIE

(Telegraph Special Service)

The call for a new allied front in Europe this spring, sounded by Maxim Litvinoff, soviet ambassador to the United States, seems bound to create a profound impression in Washington and London.

There can be no doubt that Litvinoff, who urged this action in a speech before the Overseas Press Club in New York last night, was speaking for his chief, Joseph Stalin. No ambassador would dare venture on such a subject without instructions from his government, and the address therefore becomes a matter of first class importance in allied councils.

Observers generally gathered that Litvinoff had principally in mind a major offensive in western Europe, to be co-ordinated with the Russian drive on the eastern front. This would mean that at long last the British would invade the continent, assisted by America and the smaller allies.

That would place Hitler between two fires—a situation which any commander will avoid if humanly possible. Litvinoff was optimistic enough to predict that this might mean an allied victory by summer—a forecast which would seem to fit in with the optimism which has been radiating from Moscow recently in connection with the great Russian successes.

The soviet envoy repeated the generally accepted thesis that "to deal Hitler a knockout blow would mean to smash the axis and greatly to simplify all the other problems confronting the United Nations so that their solution would take much less time and trouble."

One assumed that he had reference to Japan in speaking of "other problems." In this connection he voiced the view that there would be no other fronts outside Europe where offensive actions would be initiated, at least for a long time to come. This naturally gives rise to the thought that he

## Income Taxes

Dallas, Tex., Feb. 27.—(AP)—Mrs. W. A. Marsh wants to pay General Douglas MacArthur's income taxes.

Irked by a treasury notice that MacArthur would not be required to file a return next month—but would have to catch up when the war was over, she said:

"I'm starting the MacArthur income tax fund with \$1. Now let's see how many appreciate what he and his men are doing."

American "Flying Tigers" Waited  
for Japs to Stage Daylight Attack

Mandalay, Burma, Feb. 26.—(Delayed)—(AP)—The defense of deserted Rangoon Wednesday, in which American volunteer "Flying Tigers" and RAF Hurricane pilots destroyed 27 Japanese planes surely and seven more probably, beat off the raiders in their biggest daylight air assault in Burma so far.

Such a raid had been expected and the defense was a carefully prepared surprise for the enemy.

The American Volunteer Group, under Squadron Leader Bob Neale of Seattle, Wash., had been ready for two weeks for just such a mass attack as the Japanese finally launched. In its picked flight roster were these combat veterans:

Gregory Boyington, Seattle; M. W. Kuykendall, San Saba, Tex.;

(By The Associated Press)  
Dispatches from the Staraya Russa front declared today that the Russians were breaking down the stand of the trapper survivors of Germany's 16th army, virtually dooming division after division of the encircled force of at least 96,000 men.

Besides the 290th, 30th and elite guard divisions earlier hemmed in rings within the encirclement, these dispatches said the Russian squeeze maneuver had endangered the 5th division, the 18th motorized division and the 81st division, reported brought to the Russian front from France.

Russian reports said the trapped troops refused to surrender and were suffering heavily.

German units outside the trap were said to be counter-attacking at some points in an effort to

Fate of Siamese  
Twins Uncertain

New York, Feb. 27.—(AP)—Science sought an answer today to the question whether two newborn girl babies must spend their lives joined together face to face or whether the knife could rectify nature's phenomenon.

Although an operation to separate the Siamese twins is contemplated, Dr. Peter Timpona, who delivered them yesterday to Mrs. Jessie Picciotto, 25, said that at least 10 days would be needed for X-rays and other examinations to determine how closely their organs and circulatory systems were connected.

Should the connection, which is from a point just below the chest to about an inch below the navel—a distance of about three inches—be found superficial and the bloodstreams separate, physicians said the chance for a successful separation would be good.

At first the information she had borne Siamese twins was withheld from the young mother, whose only other child, also a girl, died soon after birth last year, but at her insistence on learning their welfare she was told about it.

The twins, christened Joan and Vincenza, weighed nine pounds, four ounces together.

Their spike-nosed Tomahawk fighter planes had been detailed specifically to Rangoon's defense in order to save their engines from excessive wear on long escort missions which had been daily fare after they had broken Japanese fighter sweeps over the Rangoon area late in January.

"When the Japs think we've all cleared out they'll come over in daylight again," Neale told newspapermen last Friday when the army ordered correspondents to move more than 400 miles from the Rangoon front.

"Boy, will they be surprised to find the AVG still in Rangoon."

Japs Make First Aerial Attack on Indian Territory--  
Await Help for Assault on JavaHouse Nears Vote  
on Suspension of  
Labor Laws in WarAdministration Fights  
Proposal to Abandon  
40-Hour Week Rule

Washington, Feb. 27.—(AP)—Advocates of a wartime suspension of the 40-hour week and overtime bonuses ran into the opposition of the Roosevelt administration leadership today, but clung to their claims that a majority of the house would vote prompt support of suspension.

Administration leaders on Capitol Hill said the outcome depended on how the Republicans lined up on the proposal to make the suspension a part of a pending war powers bill.

Downtown, President Roosevelt spoke disapprovingly of the idea of attaching what he called riders that ought to be vetoed to measures which cannot be vetoed.

Sponsors of the amendment to suspend the laws for a 40-hour week and time-and-a-half overtime pay for the duration of the war have contended that their proposal is germane to the war powers bill, which covers several subjects.

It was learned from a high administration official that the government thinks the general effect of this amendment would be principally to eliminate payment for overtime, and that this would apply in non-defense industries as well as in war industries.

**Fear Pay Reductions**  
This authority said that at present men in some industries were working as much as 60 hours a week and that the average now probably is 44 to 46 hours.

It was made plain that the administration disapproved the amendment to abandon the 40-hour week chiefly because it felt that it would mean a reduction of the sum in many pay envelopes.

At the same time, the senate labor committee, confronted with demands for a definite national labor policy, called an executive session to discuss with Chairman William H. Davis of the War Labor Board whether such a policy was needed.

The house faced its most important decision on a labor question since it voted overwhelmingly in early December for the bill of Rep. Smith (D-Va.) outlawing jurisdictional strikes, freezing the closed shop issue for the duration and providing for registration of unions. That measure still is awaiting action in the senate labor committee.

Smith yesterday also offered the proposal to suspend the 40-hour week, by an amendment to the second war powers bill. His plan stirred up such heated debate that administration leaders put off a vote until today to let tempers cool.

The debate was carried on for several hours mostly among the Democrats. Most southerners lined up with Smith, while easterners and midwesterners from big manufacturing centers lined up with the administration.

Sing Sing Loses Its  
Most Unwelcome Guest

Ossining, N. Y., Feb. 27.—(AP)—The Sing Sing prison death house lost one of its most unwelcome guests last night when George Joseph Cvek, scorned even by fellow condemned men, was electrocuted for strangling to death a Bronx housewife.

The 24-year-old hitch-hiker, who was convicted of slaying Mrs. Catherine Pappas, 34, and who admitted raping or robbing at least 14 women in various eastern cities, smiled when he entered the execution chamber at 11:01 o'clock. Three minutes later he was dead.

Defiant to the last, he had startled Warden Robert Kirby by remarking "it's a nice day," and the warden thought for a moment that Cvek, a native of Harrisburg, Pa., had repented until the doomed man added with a smirk: "for some people."

Rental Inflation  
Will be Curbed by  
Henderson Orders

Washington, Feb. 27.—(AP)—Price Administrator Leon Henderson within a few days will take firm action to curb inflationary rentals in war-boom cities and towns housing upwards of 7,000,000 persons, it was learned today.

The Office of Price Administration will designate officially the first group of defense rental areas, with recommended ceilings to be applied, and with the boundaries of each area defined by local maps.

The designation will put the communities on 60-days notice to reduce rents to the government-recommended levels. If this is not accomplished by state or local action, OPA may move in with powers conferred in the price control bill to enforce lower rentals.

**Dozen Areas Likely**  
The number of areas to be designated was not divulged, but there was good indication they would total more than a dozen. Rent surveys have been conducted by OPA in approximately 230 communities.

It was assumed the first group of defense housing areas would be cities and communities where rent levels have soared farthest above normal. Rent increases ranging between 5 and 100 per cent have been reported from numerous communities, particularly ordnance, shipbuilding and aircraft manufacturing centers and in areas swollen because of the expansion of nearby military establishments.

**Mayors Consulted**  
OPA has consulted by mail with the mayors of about 170 cities on rent levels and the impending action is based on these advice together with data compiled by OPA itself, by existing fair rent committees in scores of communities, by the department of labor and other agencies.

The price control law provides that if communities do not bring about substantial compliance with OPA's recommendations within 60 days, the price administrator may fix maximum rentals and take action to enforce their observance. The law recommends that OPA shall use as a basis for the rent ceilings the rentals for comparable accommodations on April 1, 1940, but gives Henderson latitude in choosing some later level if that proves more suitable.

Halifax Says Britain  
Has Taken "Appalling  
Risks" to Help Allies

Philadelphia, Feb. 27.—(AP)—Great Britain has taken "appalling risks with the safety" of the home front to help her allies in other theaters of war, says Viscount Halifax.

The British ambassador to the United States, replying to accusations that his country "leaves the fighting to her friends," told the American Academy of Political and Social Science last night:

"In 1941, we got 2,000 aircraft from this country, but we sent more than 9,000 overseas. We imported 200 tanks, but we sent abroad 3,000."

In addition, he went on, RAF daylight sweeps over western Europe last summer, designed to draw from the Russian front as many enemy planes as possible, cost the Empire half as many fighter pilots as was lost in the whole of the battle for Britain in 1940.

Discussing India in an interview, the former Viceroy endorsed the recent statement of Sir Stafford Cripps that a decision soon would be made on the question of that country's freedom.

Dixon Girl Scouts to  
Conduct Cookie Sales

Dixon Girl Scout troops will engage in a two weeks cookie selling campaign, the proceeds from which will be used for the summer camp program. The sales campaign officially opens tomorrow, Saturday, Feb. 28. Girl Scouts with high records of sales will be entitled to attractive prizes which have been made possible. The first prize will be a full campship to Camp Ralston; second prize, one-half campship to Camp Ralston; third prize, first aid kit, with additional awards to be announced later. The Girl Scout with the largest sales record during the campaign will also be crowned Cookie Queen at an event to be announced soon. Stickers will be provided for purchasers of the Girl Scout cookie, which may be placed in windows to indicate that the home has been solicited and has responded.

Andaman Islands in  
Bay of Bengal Under  
Aerial BombardmentAllied Bombers Keep Up  
Attack on Armada Off  
Bangka Island

BY ROGER D. GREENE  
Associated Press War Editor  
Japanese warplanes were reported today to have attacked Indian territory for the first time, twice bombing and machine-gunning the Andaman islands in the Bay of Bengal, 350 miles southwest of Rangoon, Burma, on a vital United Nations supply route to China, Russia and the Far Pacific.

The raiders hit at Port Blair, chief port of one of the island group inhabited by ferocious warriors of pigmy descent.

Calcutta and other Indian cities have already taken precautionary measures against a possible Japanese attack.

In the battle of the Dutch East Indies, allied bombers smashed at a new Japanese invasion armada off Bangka island amid indications that the badly-mauled enemy was awaiting reinforcements before risking an all-out assault on the United Nations citadel of Java.

Bangka lies off the east coast of lower Sumatra, 270 miles north of Batavia.

Three Japanese planes bombed and machine-gunned Port Blair on Tuesday and Thursday, executing Japan's farthest thrust to the west since the war began. Two civilians were killed, five wounded.

The Andaman islands are strategically important as a base for possible Japanese invasion of Ceylon or India.

In the Philippines, a bulletin from Gen. Douglas MacArthur's headquarters said American and Filipino troops had scored gains of a half to five miles along the entire Bataan peninsula front in the last 48 hours.

The communique said fighting between light forces on both sides continued to rage, with Gen. MacArthur's men holding advance positions they wrested from the Japanese in a surprise attack.

Sight Ship Afire  
Off Belmar, N. J.

Belmar, N. J., Feb. 27.—(AP)—The Belmar police reported sighting a ship about five miles offshore early today, and coast guard vessels from both New York and New Jersey stations put out to the rescue.

Police Sergeant William Briden said he was on oceanfront patrol at 12:40 a. m. when he saw "a big wall of fire that shot about 200 feet into the air" arise from the vessel.

Thousands of coast residents saw the blazing ship, which, silhouetted in its own flames, appeared to be a tanker, drift slowly northward to a point about halfway between here and Asbury Park, six miles away.

By the time the blazing ship had reached that point at about 3 a. m., the fire was no longer visible from shore.

Although some 10 coast guard vessels were dispatched to the scene, the Third Naval District in New York said at 4:15 a. m., when it released the story for publication, that it had received no information on the name or type of the craft, or the extent of the damage.

Secrets, Just a Few, About Great  
Super-Transport Plane Revealed

Los Angeles, Feb. 27.—(AP)—Lockheed Aircraft Corp. displayed a model today of the super-transport it is constructing for Transcontinental & Western Airlines and let out a few secrets—just a few—about this 57-passenger airplane.

With army approval, it said the ship will have a 4,000 mile range, fly at 3,000 feet, have a top speed of 350 miles an hour and cruise at 285 M. P. H. That will enable it to reduce commercial flying time from Los Angeles to New York to 8½ hours. TWA's fastest coast-to-coast flight is 13 hours, 8 minutes.

The new transport, costing about \$500,000, is scheduled for June delivery. It will have four 2500 horsepower motors. It has provisions for a crew of seven. Safety devices include double

Irrelevant Rider  
Attachments Very  
Censurable; F. D. R.

Washington, Feb. 27.—(AP)—President Roosevelt condemned today, as a very reprehensible method of legislating, what he called the attaching of riders that ought to be vetoed to measures which cannot be vetoed.

The chief executive told a press conference that since 1913 he had had the idea it was not quite fair to congress or the country to attach riders to appropriation measures when the riders were not germane.

His remarks arose from the plan of the senate farm bloc to tack on to a pending \$32,762,737, 900 war appropriation bill an amendment designed to prevent sales of government-held farm products below full parity prices.

**To Circumvent Veto**  
The senate already had approved legislation which included this prohibition, but the farm bloc took steps to clinch its victory by putting substantially the same provisions into the huge war appropriation so that the danger of a presidential veto would be lessened.

Although he confined his remarks originally to riders on appropriation measures, Roosevelt told reporters that his words also were applicable to riders on all types of legislation.

He said a question of legislative ethics was involved.

By making it clear that his views extended to riders on all types of measures, the chief executive indicated that he would look with disfavor upon adding to a war powers bill pending in the house an amendment which would suspend the 40-hour week while the war lasts.

**Administrative Fears**  
It was learned from a high administration official that the government thinks the general effect of this amendment would be, principally, to eliminate payment for overtime. And this would apply in non-defense industries as well as in war industries.

A high authority said that at present men in some industries are working as much as 60 hours a week and the average now probably is 44 to 46 hours.

## Internment

Chicago, Feb. 27.—(AP)—Internment for the duration of the war is the outlook for at least 10,000 Chicago aliens who haven't as yet applied for identification certificates, Postmaster Ernest J. Krueger says.

More than 37,000 German, Italian and Japanese nationals have been registered since Feb. 9. Tomorrow night is the deadline.

Slayer of Sweetheart  
Goes on Hunger Strike

Chicago, Feb. 27.—(AP)—Seventeen-year-old Clarence McDonald, charged with the matinee murder of his high school girl friend in a loop movie Tuesday, has gone on a hunger strike in the Cook county jail.

Warden Frank Sain disclosed today that the boy had refused to eat anything since he was taken to the jail yesterday morning. Unless he accepts food soon, the warden said, forced feeding will be undertaken.

The county grand jury was reported yesterday to have named McDonald in a true bill charging him with the fatal shooting of Miss Dorothy Broz, 17, as they sat in the balcony of the Palace theater.

MacArthur's Force

Captured RecentlyIncreased and Speedier  
War Spending Planned  
in Washington

Washington, Feb. 27.—(AP)—Fighting between light forces on both sides is continuing on the Bataan front in the Philippines, the war department reported today, with General Douglas MacArthur's troops holding advance positions representing gains of one to eight kilometers along the entire front in the last 48 hours.

(These gains were from a little over six-tenths of a mile to almost five miles. A kilometer is .621370 of a mile.)

The text of the communique, No. 126 of the war, based on reports received here up to 8:30 a. m., CWT:

**"1. Philippine Theater:**  
"Fighting continues on the Bataan front with light forces engaged on both ends. General MacArthur's troops are holding advance positions which represent gains of from one to eight kilometers along the entire front during the past 48 hours. The great advance was made on the right of the line north of Pilar. Our troops are being subjected to a relatively light enemy air and artillery attack.

"There has been no firing on our fortifications from enemy artillery positions on the Cavite shore for several days.

"2. There is nothing to report from other areas."

**Boost Expenditures**  
Meanwhile administration leaders disclosed today that 30 per cent increase in war production had been charted for the next four months in a progressive speedup that is expected to boost military expenditures to nearly \$5,000,000,000 monthly by the end of the year.

Senator McKellar (D-Tenn.), floor manager for a \$32,762,737, 900 military money bill pending before the senate, said the appropriations committee had been informed that a total of \$13,684,000,000 would be spent for war purposes in the five-month period from January 31 to June 30. This would compare, he said, with \$16,000,000,000 spent from July 1, 1940, up to February 1, 1942.

The treasury reported that national defense expenditures for January were approximately \$2,100,000,000 and this amount would have to be raised to an average of \$2,727,000,000 for February and the next four months, or an increase of 30 per cent, in order to attain the new goal.

Committee members said they expected much more rapid acceleration of expenditure in the latter part of the year, in keeping with Roosevelt's \$56,000,000,000 war budget for the fiscal year beginning July 1.

McKellar told the senate yes-

field to the Forreston Community high school last week bore the following message: "May we advise that Forreston has been assigned a quota of 50 planes with Ralph Ragsdale of the Industrial Arts department acting as supervisor. Plans and specifications for this project was released from Washington, February 23. We appreciate your interest, and shall be glad to answer any further questions".

The Washington plans arrived Monday morning, Feb. 23 and Mr. Ragsdale got the project under way the same day.

The planes, which are to be used by the U. S. Navy, Bureau of Aeronautics, are to be exact models of 50 of the most prominent types of planes being used in the war today. The exact scale of these models is 1 to 72. That means that a model plane seen at 35 feet is identical with the true airplane seen at just under half a mile.

The government, through the U. S. Office of Education, furnishes the blueprints and specifications. The locality in which the planes are made must furnish the necessary materials. Forreston boys in the industrial arts classes are doing their bit, not only by building the models, but have agreed to chip in to pay for the materials used.

It is hoped that at least part of the models can be placed on display where friends of the school can see the type of work the boys are capable of doing. The boys deserve a lot of credit for their work and money spent for such a worthwhile cause. Their motto is: "Keep 'Em Flying".

The following 20 boys are now working on planes, each a different type: Ted Binkley, Bernell Frank, Billy Lomax, Max Myers, Joe Olander, Donald Stolzman, Glenn Stukenberg, Orchel Watry, Frank Boyer, Lowell Brockmeier, Lynn Duitman, Harold Hiteman, Donald Schell, Homer Schmidt, Bun Martin, Dave Schroeder, Vernon Harrenstein, Mack Dixon, Glenn Miller and LeRoy Nicodemus.

Billy Lomax Glenn Stukenberg, Burnham Martin, Orchel Watry, and Vernon Harrenstein have already done considerable work on their own initiative in working on model planes the past year or more.

Young Lomax had a fine exhibit at the Farmers Institute a year ago and Orchel Watry displayed some of his work this year.

Vernon Harrenstein gained some of his interest from his uncle, Clarence Ratmeyer, and LaVerne Bradford, who together built a plane having a five foot wing spread which has flown almost half a mile on several different occasions. The plane is powered with a miniature gasoline motor.

Bradford has since built two other planes.

Mr. Ragsdale reports that the boys are all working enthusiastically on this project.

## Ashton Couple Entertains in Florida Home

Mr. and Mrs. Justus Wagner of Ashton celebrated their golden wedding anniversary on Wednesday at their winter home in Bradenton, Fla., where they have spent their winters for the past 15 years. Open house was held at their home, 807 27th avenue for members of their family and their friends in Bradenton.

Both Mr. and Mrs. Wagner are descendants of pioneer families of Reynolds township. She was formerly Miss Mary Wiener. The couple were married Feb. 25, 1892, at the Wiener home east of the Reynolds church, now occupied by the Wilbur Burhenn family.

The Wagners went to house-keeping on the farm now owned by Mark and Lloyd Ewald. They later purchased the northeast quarter of section 28 in Reynolds township, where they made their home until moving to Ashton in 1907.

Mr. and Mrs. Wagner are the parents of a son, Harrison, of Riverside, and a daughter, Mrs. Gladys Smoke, whose home in Bradenton is within a block of her parents' winter residence. There are also seven grandchildren and one great-grandchild.

Among those attending Wednesday's celebration were Mr. and Mrs. Harrison Wagner of Riverside and their three daughters, Margaret, Patricia and Mrs. Charles Fogarty, and Mrs. Fogarty's son, William Charles; Mrs. Emma Menz of St. Petersburg, sister of Mrs. Wagner; Mrs. Menz' daughters, Mrs. Hilda Emerson and Miss Olive Menz of St. Petersburg; Mr. and Mrs. Edwin Davis of Miami, brother-in-law and sister of Mr. Wagner.

Many Ashton friends and relatives sent greetings to the couple on Wednesday, including the official board of the Methodist church, of which the Wagners are members.

## Clubwomen Offer Chicago Tour

Mrs. A. C. Bowers and her American home and garden department of the Dixon Woman's club are inviting their townswomen to take advantage of a bus pilgrimage which the department will sponsor to Chicago on Saturday, March 21. Two buses are being chartered for the occasion, planned primarily to provide transportation to the National Flower and Garden show, scheduled for March 15-22, at the International Amphitheatre.

The Czechoslovakian Garden club is sponsoring the exhibit. From the time announcement was first made that the National Flower Show would return to Chicago, city of its inception in 1908, the Czechoslovakian Garden club, an enthusiastic group of some 1,000 members, began making plans to arrange an exhibit representative of their organization. A garden, 30 feet wide by 20 feet deep, designed by V. J. Hajny, noted architectural designer and a member of the club, is the result.

The garden overlooks a diorama of Prague. Other feature exhibits of the ancient and beautiful city will include Crescendo Falls, a gigantic mountain and waterfall; the Victory vegetable garden; a huge spring garden of tulips and daffodils; and a mammoth garden of June garden roses, featuring the newest of patented roses in a special "V" design.

Advance sale tickets are being offered by Mrs. Bowers and her committee members, Mrs. Frank Robinson, Mrs. F. A. Hanson, Mrs. J. W. Cadie, Mrs. Charles Willett, Mrs. O. L. Gearhart, Mrs. R. C. Schmutzer, and Mrs. E. G. Hubert, and will be available at tomorrow's meeting of the Woman's club. The advance sale will close on March 10.

**FAREWELL PARTY**  
The Theodore Pitzer family was surprised Monday evening when about 40 neighbors gathered to honor them with a farewell party. The Pitzers expect to move March 1 to Marion township, to reside on the Robert Chase farm.

Refreshments were served, following an evening of visiting. In behalf of the group, Joe Crawford presented the Pitzers with a set of dishes.

**PHIDIAN CLUB MEETS TUESDAY**  
Mrs. John Davies will be hostess to the Phidian Art club Tuesday afternoon at the Loveland Community House. Miss Jean Hitchcock will read a paper, with "Behind the Lines" as her subject.

**TO CALIFORNIA**  
Mrs. Philip Saur, Jr. has returned to California, after spending several weeks in Oregon at the home of Mr. and Mrs. Philip Saur, Sr. Her husband is stationed at Camp Ord, near Monterey, Calif.

**TO SOUTHWEST**  
Mr. and Mrs. F. W. Gantz and Frank Fischer of Oregon are leaving this week on a trip to the southwest. They will visit the Gantz's son, John, a lieutenant in the air corps at Scott Field, near Belleville. From Belleville, they expect to go to New Orleans for a brief visit with Mr. and Mrs. C. T. Wadsworth, en route to San Antonio, Tex. to visit their younger son, Robert, who is in training as an aviation cadet at Randolph Field.

**ATTEND ANTIQUE TEA OF D. A. R.**  
Nine Dixon women were in Sterling yesterday afternoon, attending the antique tea sponsored by the neighboring D. A. R. chapter at the home of Mrs. Hungate, one of the oldest residences in Sterling. Guests from here included Mrs. Willard Thompson, president of the Dixon D. A. R. chapter, Mrs. Harry Warner, Mrs. W. G. Murray, Mrs. Louis Pitcher, Mrs. Ruth Bovey, Mrs. Robert E. Shaw, Mrs. Peterson, Miss Franc Ingram, and Miss Jean Hitchcock.

The guests were received by a hostess, dressed as Martha Washington, and several of the other committee members, including those who presided at the beautifully appointed tea table, were also wearing gowns of long ago.

The display of antiques was varied and interesting, ranging from dolls, shawls, quilts and dresses to silverware, glass, china, and articles of historic significance.

**SCOUT COUNCIL**  
The monthly meeting of the Dixon Girl Scout council has been announced for 9 a. m. Tuesday at the home of the commissioner, Mrs. I. B. Hoefler, 510 North De-mont avenue.

**EVENING CLUB**  
Mrs. Thomas Erwin was hostess to her bridge club of 12 Wednesday evening, including the Misses Ruby Nattress and Mary Wilford as invited guests. Mrs. Lex Hartzell is to entertain next.

**MRS. DURKES IS HOSPITAL PATIENT IN NEW YORK CITY**  
Mrs. Warren C. Durkes, well known Dixon woman, is a patient at Presbyterian hospital in New York City, where recent X-rays revealed serious complications. However, her physician permits her some recreation, under the care of a nurse.

Recently, Mrs. Durkes, her son, Richard, and her nurse were dinner guests of Dr. and Mrs. Frederick C. Grant at their duplex apartment at the Union Theological Seminary. Dr. Grant, it will be remembered, was formerly rector of St. Luke's Episcopal church here.

One Sunday morning recently, Mrs. Durkes attended one of Dr. Grant's sermons, and before leaving for the chapel, she read an item in The Telegraph's "Twenty-Five Years Ago" column an announcement of Dr. Grant's departure from Dixon for Evanston. She put the clipping into an envelope and placed it in the collection plate for the former Dixon rector.

The Grants' married son is in the ministry, and their daughter resides in Seattle. Dr. Grant preached the morning sermon at St. Paul's chapel on the Columbia university campus recently, when the Rev. Raymond C. Knox, retiring chaplain at the university, said goodbye to his congregation. Noting that Chaplain Knox has chosen the name of St. Paul's chapel, Dr. Grant spoke on the conversion of St. Paul, urging that "each individual cultivate discipline of body, of speech, of the heart and of the soul" to be able to meet the present crisis.

Miss Bess Eells and her sister, Mrs. Upham, visited Mrs. Durkes last Thursday. Marian Vonziat-sky, Dixon friends have learned, wants Mrs. Durkes to join her in Connecticut to recuperate, following her dismissal from Presbyterian hospital.

**CONVERSATION CLUB**  
Mrs. Alice Beede was hostess Wednesday evening to 25 guests, members of the conversational club of the First Methodist church, at her home on Ottawa avenue. Dr. F. L. Blewfield was leader for the round table discussion.

## Sterling Woman to Show Dolls Here

The unusual doll collection of Mrs. Ezra Mathew of 713 West Third street, Sterling, will be exhibited in Dixon on Tuesday evening, under the auspices of the Missionary Guild of the First Christian church. The show will be held in the church basement, beginning at 8 o'clock, and the public is invited.

Mrs. Mathew held open house for her dolls during the Christmas season of the past two years, and the exhibits attracted hundreds of visitors. Her collection has also been shown at numerous club meetings, and also at last year's hobby show in Chicago.

Although the war has made it practically impossible for her to obtain novelties from the orient, she recently added 12 dolls from China, Mongolia and Formosa to her collection. Mrs. Mathew has made many of her dolls out of hickory nuts and English walnuts, painting the faces. She started the collection as a hobby about 15 years ago, and it now includes dolls from all parts of the world.

Mrs. Larry Poole is president of the Missionary Guild, sponsor of Tuesday evening's show.

## SCOUT COUNCIL

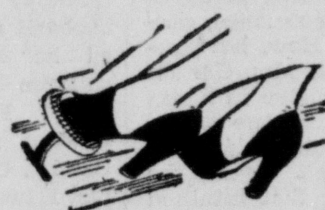

The monthly meeting of the Dixon Girl Scout council has been announced for 9 a. m. Tuesday at the home of the commissioner, Mrs. I. B. Hoefler, 510 North De-mont avenue.

## EVENING CLUB

Mrs. Thomas Erwin was hostess to her bridge club of 12 Wednesday evening, including the Misses Ruby Nattress and Mary Wilford as invited guests. Mrs. Lex Hartzell is to entertain next.

# Spring Conditioning that's TAILORED TO YOUR CAR!

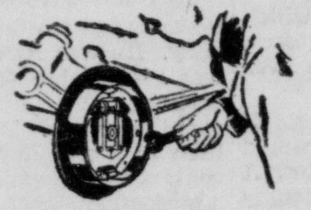

Come in Now for a **FREE** Inspection by Authorized Factory-Trained Mechanics that Will Show Exactly what Attention **YOUR** Car Needs.

**HOW'S YOUR CLUTCH ACTION?** Did you know that a clutch that is not operating properly can result in too-rapid tire wear? That's one of the things our tailored spring servicing catches.

**ARE YOUR WHEELS IN LINE?** Misaligned front wheels not only wear tires rapidly but may interfere with proper car control. One of many instances where it's better to check up and be sure.

**GOOD BRAKES MEAN SAFETY PLUS** Brakes ought to be kept in proper adjustment for safety reasons alone. Beyond that, brakes that are "out" can also result in unnecessarily increased tire wear. For best results, let Buick men adjust your Buick brakes to Buick factory specifications.

**LICK-AND-A-PROMISE** spring conditioning won't do this year, mister!

You've got something more important to think about than just changing oil and grease—you've got a **whole car** that will have to **see you through the duration**, and you can't afford to overlook any part of it.

That's why Buick spring service is **tailored to your own particular car**.

We change oil and grease in the regular way, of course—we check batteries, cooling systems, wheel alignment and other routine matters.

Your whole car lasts longer when it is con-

ditioned as a unit—especially when trained Buick specialists do the job.

So we write your spring conditioning ticket to fit your car's needs—not to make up a ready-made "package" according to average requirements.

The cost is no higher than for a comparably good job anywhere else. It's actually **lower** in the long run, because it pays to have a job done right.

Drop in for a **FREE** check-up by our authorized factory-trained mechanics and let us detail the service your car should have this spring.

## A Thought for Today

The Lord is a man of war.—Exodus 15:3.

The tree of liberty must be refreshed from time to time with the blood of patriots and tyrants.—Thomas Jefferson.

## Waste No Waste!

"The axis crashed in a deluge of pop bottle tops, chicken bones, rusty pen points and out-of-the-heel socks." You will never read that in a headline or history text, but figuratively speaking it can and may happen.

With most of us in this country just beginning to stir our stumps for victory, we can learn a very profitable lesson in the big importance of little things in winning a war. Best of all here is something everybody can do and it is going to take every man Jack and all his sisters, brothers, cousins and children to do the job.

Every British home now has four cans for four types of waste needed to dull the axis blade. One can is for paper and rags, another for bones, the third for metal and the fourth for garbage.

Not much of the horror of war there, or the glamor of battle, if there is any glamor left in war. It's much more exciting to wave a flag, march in a parade or spellbind the neighbors with a windy speech of what Wavell or MacArthur or Nimitz should have done. But if every American home had four such cans and filled them as quickly as possible we should make a much better showing in that regard than Britain and here is what Britain showed:

The salvage of waste paper alone saved 25,000 tons of shipping space which could be used for more vital materials. The London Passenger Transport Board reduced the thickness of tickets by only .004 of an inch, thereby saving 480 tons of paper annually, and that paper is needed for cart-ridge wads.

Most important, enough scrap metal—old skillets, sardine tins, razor blades, toothpaste tubes—rolled from those cans, junk heaps and city dumps to build 10 destroyers, 10,000 tanks and 10,000 anti-aircraft guns.

That is only part of the British salvage system, but obviously it is more than worth while. It could possibly spell the difference between defeat and victory, therefore it becomes a necessity.

Americans must join the junk drive. All communities by now should have organizations and resources to handle this job. Boy Scouts, schools, Sunday school classes and clubs are collecting refuse, but they can't collect it if you do not save it

for them. "Remember Pearl Harbor" and "Mash 'em MacArthur" may bring you up with your fists clinched tighter than "Waste No Waste," but the latter packs a potential wallop.

## The Future Without Fear

"The public," says Evans Clark, executive director of the Twentieth Century Fund, "is too much afraid of the post-war period. That is because we haven't faced the issues and seen the challenge they make to courageous and imaginative effort to create a better life for everyone."

The central fact revealed by five different surveys of post-war possibilities made during the past year is this: the stimulus of war has enabled the United States to do what it could not bring itself to do in time of peace—that is, use its full productive facilities, and even increase them. The steps which we haltingly took in mortal fear of bankruptcy have been dwarfed already by the war effort. Stuart Chase points out that we have already appropriated twice as much for war purposes as the whole governmental effort at rehabilitation cost in the previous eight years. Yet during those eight years everybody feared bankruptcy, and now only a comparative few fear it. Not because it is any the less possible, but because a prospect so much worse has been shown us that we know that the chance must be taken.

All authorities agree that the situation that will go with "demobilizing" war industries at a time when millions of young men are returning from armed service will be scarcely less critical. We may then be in a mood to take chances with orthodox economics that we were loath to take before, since the alternative of social disintegration may then loom up before us, just as the possibility of losing the war and becoming a vassal state looms up today.

In other words, if we fight our post-war difficulties with as great determination as we now fight the war, we have just as good a chance to win. It would be just as fatal to approach that battle without advance plans or preparations as it would be to fight the present war unprepared.

Charles W. Elliot, director of the National Resources Planning Board, pointed the way when he said "We are not going back to anything." We are going forward, and only the general direction can be known. That direction looks toward recognition of the fact that the real wealth of the country lies in its productive facilities, its farms, its skills, its character, and its people, and that these must be used to the fullest possible capacity, even if in doing so some of the old rules are violated or totally disregarded. New techniques and methods will be found, but the aim of making life better for all is the ancient American aim.

It is only by looking forward to such a future that we can make fighting the war worth while. . . . By planning for it now, we insure against a "Peace-Time Pearl Harbor" when the war shall be over.

Statistics show 1941 was one of the top years in alimony paid out. The high cost of leaving!

## State Sets Quotas for Aid Payments to Needy Children

### Payments Withheld From 16,000 Applicants as Fund Is Insufficient

Springfield, Ill., Feb. 27.—(AP)—About 53,000 needy children in Illinois will receive funds under the new aid to dependent children's program but awards must be withheld from 16,000 others because the \$16,000,000 appropriated by the 1941 general assembly is insufficient to care for all applicants, the state division of public assistance reported today.

Fletcher C. Kettle, Public Assistant Superintendent, announced that county welfare superintendents had been instructed to approve awards for 72 per cent of the 69,075 applicants "because this number exceeds the estimate made when funds were appropriated."

February A. D. C. checks totaled \$690,101 in grants to 47,985 children, and Kettle estimated that the 53,000 quota would be reached next month. Action on the 16,000 remaining applications will be withheld and new awards made only when current grants are cancelled, he said.

### New Program Helps More

The 1941 general assembly appropriated \$16,000,000, half state and half federal funds, to aid dependent children until July 1, 1943. Applicants were to be taken first from mothers' pension lists, then from relief rolls and the general public.

"Under the mothers' pension law only 16,000 children were granted assistance," Kettle said in a statement. "Therefore, the new program will benefit over 36,000 more children than were assisted under the mothers' pension program."

The majority of these 36,000 were taken off relief rolls, he explained, and added:

"In the 101 downstate counties, the average aid to dependent children payment per child (\$14.08) is more than twice the average payment per child (\$7.02) under the former mothers' pension law."

## Deaths

### Suburban—

**MRS. ANNE O'MALLEY**   
Mrs. Anne O'Malley, who came to Marion township, Lee county, from her birthplace in Syracuse, N. Y., in her childhood, passed away this morning at the home of her son-in-law and daughter, Mr. and Mrs. J. J. Shaughnessy, 1007 Chicago avenue, Freeport. Funeral services will be held at the Shaughnessy home at 9:00 o'clock Monday morning and at 9:30 at St. Mary's Catholic church, Freeport. Burial will be in the family lot in Oakwood cemetery, Dixon.

Mrs. O'Malley was the daughter of John and Katherine Kelly Meeks and was married to John O'Malley about 67 years ago. Her husband and two children preceded her in death, the surviving children being Mrs. John Shaughnessy, Freeport; Mrs. Michael Powers, Dixon; Mrs. James McCarthy, Chicago; Charles, Michael and Edward, Dixon; and John and Joe of Sterling. Twenty grandchildren and three great-grandchildren also survive.

## Funerals

### Suburban—

**HERMAN MAROHN**  
(Telegraph Special Service)  
Rochelle, Feb. 27.—The funeral of Herman Marohn, 64, who was fatally injured when he was struck by a falling tree at his home 12 miles northeast of Rochelle Wednesday, will be held at 2:30 o'clock tomorrow afternoon at the home, and not this afternoon, as was erroneously announced in Thursday's Telegraph.

Beside a brother, Henry, with whom he made his home, the deceased is survived by another brother, Andrew of Lindenwood, and four sisters, Mrs. George Luckey, Ashton; Mrs. Martha Waterfall, Kirkland; Miss Rose Marohn, Rockford, and Mrs. Otto Klein, also of Lindenwood.

## Church Societies

**Aid Society**—Section Two of the Grace Evangelical Aid society entertained women of the church Wednesday afternoon with a patriotic program, including:

Patriotic songs; devotional service, led by Mrs. William Hackbarth; short talk, "Inter-Racial Prejudices," Mrs. Norman W. Dietrich; solos, Myrtle Hoffman; address, "Women in Victory," Mrs. Carl Struwig, Lee county field woman of the soil conservation department.

Refreshments were served to about 30 women, following the meeting. Mrs. E. A. Garrison and Mrs. Dietrich presided at the red, white and blue table.

Composing the hostess committee were Mrs. W. O. Miller, Mrs. Harry Johnson, Mrs. C. A. Garrison, Mrs. M. A. June, Mrs. William Hackbarth, and Mrs. Dietrich.

## NEWS BEHIND THE NEWS

By PAUL MALLON  
(Distributed by King Features Syndicate, Inc. Reproduction in whole or in part strictly prohibited.)

Washington, Feb. 26.—Mr. Roosevelt said production is fairly satisfactory, but a lot of leading aviation manufacturers are far from satisfied. Some cruet necks—not full length bottlenecks—have developed.

One large bomber-maker is grinding out planes like sausages, but cannot get propellers to fly them. The jam of propellerless planes at his factory has become so great he has adopted a policy of flying off small batches to army centers with spare propellers, carrying the propellers back to his plant, and flying off another batch. The war department has gone to the extreme of arranging an army air transport service to fly propellers to the factory as fast as they are turned out.

Another top plane-maker was astonished to find his April allocation of aluminum tubing cut 50,000 pounds (20 ships-worth). He complained because we are allocating only 65 per cent of aluminum to planes, Britain 93 per cent. Allocations are now being increased.

Still another, this week, is reported to have cut his production week to five days (according to a letter to me from an employee) and from another plant comes complaints that men are idling without sufficient work.

These reports have long since reached the War Production Board and into the cruet-smashing business, Donald Nelson has pushed his six-foot-two-inch ax-wielder, Robert Nathan.

The propeller situation is about to be broken as two good new propeller plants are just coming into production. Worry about that is therefore lessening.

Plenty of raw aluminum is available but finished tubing is short as well as many other finished products—a fact which emphasizes the disastrous nature of the CIO strike at the Monarch Aluminum Manufacturing Co., Cleveland, engaged in producing aircraft parts.

Nathan is a straight-thinking, experienced government official of recognized ability, and he can do the job if anyone can—but strikes are beyond his jurisdiction.

Unbalanced distribution of materials is mainly responsible. It is likely Nathan's planning committee will have to take materials from those who have inventories and redistribute these supplies.

Speaking of aluminum, a Los Angeles retail merchant advertised February 15: "24 extra heavy cast aluminum utensils for \$14.75—50 cents down, 50 cents a week—made up before priorities were established—to sell at a third less than the previous price."

It appeared the same day the news came out that the government had frozen aluminum stocks in the motion picture industry there, because Henry Ford and some other war producers were having trouble getting aluminum products.

It sounded like a bargain to a Los Angeles business man who had a set sent round to his office to replace aluminum ware which his mother had cleaned out of her kitchen in the recent great drive. He wanted her to have something more to give the next time the government starts an aluminum collection drive.

How the nazis are bleeding their conquered nations white is shown again in all its fiendish efficiency in an official report smuggled out of Denmark.

Hitler told the Danes he just wanted to be a big brother to them and thus (with drawn pistol) persuaded the Danish National Bank to advance to Danes sums for agricultural exports to Germany. He promised the Danes they could use these funds to buy anything they wanted in Germany, but every time they ordered anything from Germany they found it all sold out. The Germans got the Danish agricultural products and the Danish National Bank was left holding a sackful of worthless credit.

Of course it would cost something for Germany to act as big brother. Hitler told his selected new relative—just a minor stipend to pay the cost of German occupation. That stipend up to October 1, 1941 had amounted to 256,000 kronen (about \$75,000,000 at the regular rate of exchange and two-thirds of the total pre-war annual cost of the Danish government.)

Hitler then called for Danish workers to go to Germany and about 60,000 went. When they tried to send money home, the nazis collected the money, notified the Danish bank to pay it to the workers' families, and to charge it to the German debt to Denmark.

So it is also with France, Belgium, Holland, every conquered nation, whose whole economic substance is being drained dry and quietly by the greatest international transfusion steal of all time.

Anyone in this country who wants to make a separate peace with Hitler should be provided by this country with free submarine transportation to Denmark so he can enjoy it by himself.

## Lee Co. Physicians Plan Participation in Civilian Defense

### Plan Outlined at Meeting of Society Here Thursday Evening

A meeting of the Lee County Medical Society was held last evening at the officers' dining room at the Dixon state hospital which was attended by more than 80 per cent of the membership. The meeting was called for the purpose of formulating a definite program for the participation in the National Defense program.

Dr. J. M. Lund of this city, president of the society, called the meeting to order and presented Dr. Warren G. Murray, managing officer of the Dixon state hospital, who presided during the defense discussion. Dr. Louis Belinson, assistant managing officer at the institution, presented a motion, which after considerable discussion, was adopted, providing that the Lee county medical profession become active in the Civilian Defense program. A committee consisting of the following physicians was named to meet within the next week and formulate a program to be adopted by the society: Drs. David Murphy and Warren G. Murray, Dixon; Dr. E. A. Baker, Ashton; C. G. Pool, Compton and Eugene Sullivan, Amboy.

## Program Outline

The proposed Civilian Defense medical program for Lee county, outlined by Dr. Belinson provides for the establishment of three zones as follows:

Defense zone, No. 1—Palmyra, Nelson, Dixon, South Dixon, Naucha, China, Ashton, Bradford townships.

Defense zone, No. 2—Harmon, Hamilton, Marion, East Grove, Amboy, May, Lee Center and Sublette townships.

Defense zone, No. 3—Reynolds, Viola, Brooklyn, Alto, Willow Creek, Wyoming townships.

The particular defense problems in zone No. 1, would be the Dixon state hospital and the city of Dixon, while the Green River Ordnance plant and the city of Amboy would be the essential problems in zone No. 2. Zone No. 3 does not have any particular defense objectives.

Each zone should be under the supervision of one physician perhaps designated as an assistant director of the emergency medical service for that zone. One individual should be designated as the director and he should be either one of the three or an additional individual which would perhaps spread the work more effectively. These three or four physicians would be responsible for the administrative problems involved. The remaining members of the Medical Society will be in the following three groups: township location; members of the various hospital emergency staff; casualty teams.

### Survey Hospital Facilities

A survey should be made of the hospital facilities of the entire county making available the equipment and supplies on hand as well as the number of casualty victims who might be provided for at any one time before any shifting and re-arrangements are made.

The allocation of casualty stations, it was suggested pointed to the consensus of opinion that the schools present the best possible arrangement. Considering the size of the county it was urged that a sufficient safeguard could be provided with few stations, each to be provided a quantity of first aid supplies. Casualty teams, nurses and volunteer groups would be assigned to each station.

It was also suggested that mobile units be established in each zone, with properly equipped station wagons. The type of medical supplies to be employed is to be left to the selection of the committee.

The proposed program provides that the list of available blood donors who have been typed and found Wasserman negative, be available and kept up-to-date. Transportation facilities for the injured will be covered in a survey to be conducted by the highways department.

Blackout preparations in the various communities are provided for as well as the protection of sources of supply of drinking water and a system of adequate communications.

C. W. Evans, representative from the state department of public charities, addressed the physicians, explaining the plan proposed by Director Rodney H. Brandon to depopulate the charitable institutions of Illinois.

# Paw Paw and Steward-Finalists in Franklin Tournament

## Tiskilwa Defeats Wyandot-LaMoille Turns Back Malden

The finals of the LeMoille district tournament will get underway tonight at 8:30 p. m. as LaMoille will face Tiskilwa for the championship.

Last night Tiskilwa defeated Wyandot 40 to 21 in order to be in the finals tonight. LaMoille won over Malden 41 to 29. Both LaMoille and Tiskilwa are now eligible to play in the Regional tourney which will be held in LaSalle next week.

**Tiskilwa and Wyandot**  
Tiskilwa copped an early lead over Wyandot 10 to 2 and was never from hereon seriously threatened. In the second quarter Tiskilwa increased her margin 9 to 3 which made the half score read in her favor at 19 to 5. Tiskilwa outscored her opponents 14 to 6 in the third but in the fourth Wyandot staged a come-back which granted her outscoring Tiskilwa but not enough to make a serious threat and the game ended favoring Tiskilwa 40 to 21.

Sterling led the Tiskilwa scorers with 14 points and Young, forward, paced his mates with 10 tallies.

**LaMoille and Malden**  
LaMoille took the lead early in the game and held it throughout the fray but at times it was in danger and only in the fourth period did the hosts managed in breaking completely away Malden for a scoring spree.

It was LaMoille in the first quarter at 12 to 6 but in the second the Malden boys dwindled the margin and the half-time score stood in favor of LaMoille at 18 to 15. LaMoille barely outscored Malden in the third by the count of 10 to 9 and it was still anybody's ball game. In the fourth period the LaMoille boys took the bull by the horns and threw it out of sight as the barricades dropped and they proceeded to roll up 13 tallies to only 5 for Malden which made the total in favor of LaMoille at 41 to 29.

Galletti, LaMoille center, paced the hosts with 11 points and Green led the losers with 13.

## Paw Paw Eliminates Rollo as Steward Defeats Earlville

### Knetsch, Anderson and Richardson Prove Stars of Tourney

Without much ado or serious concern the Paw Paw and Steward Cagers won their games in easy stride last night in the semi-finals of the Franklin Grove district tournament.

In the first game Paw Paw won over Rollo 53 to 36 and in the second they defeated Earlville 51 to 33. Tonight Steward will meet Paw Paw for the championship. Both Steward and Paw Paw are now eligible to play in the Dixon regional next week and how they make out tonight will determine whom they play.

The winner will meet Sterling in the upper bracket of the tourney and the runner-up in tonight's fray will meet Prophetstown in the lower bracket.

**Paw Paw and Rollo**  
Coach Flancher's Paw Paw basketballers won their way to play in the Dixon regional next week by romping over Rollo in a bevy of bucket shooting which gave them the long end of a 55 to 36 count.

Paw Paw took the lead in a high scoring first quarter at 15 to 11 and then tightened her defenses a little in the second frame as she continued to increase her margin by 19 to 9 which gave the Flancher-men a first half lead of 34 to 20.

In the third quarter Rollo displayed a brilliant brand of ball and amazed the Paw Paw lads by outdoing them 12 to 3 and bringing the total count going in to the fourth to 37 to 32. This was Rollo's best bid for the Paw Paw team retaliated in the concluding canto by adding 18 tallies to her credit to that of only 4 by Rollo.

**Knetsch, Paw Paw's** towering menace to all comers, was fiery hot as he rolled up nine buckets and one toss at the free line for a total of 19 points. Knight, Rollo forward, led his team with 17 counts.

**Steward and Earlville**  
Coach Stenbach's Steward boys played a smooth and accurate shooting game as they won their way to the finals by touring over Earlville 51 to 33. The Steward lads took an early game lead which went unquestioned through the whole last half, for Earlville just couldn't hit the bucket enough times to even make a decent rally in the last two periods, although the latter did play even-up ball with Steward in the third quarter.

Steward took the lead in the first frame 15 to 10 and then held Earlville to a measly five in the second as she duplicated her first period performance which brought the half count in favor of Steward to 30 to 15. In the third period Earlville displayed her best type of ball by evening things up but it wasn't good enough to decrease any of Steward's margin, both clubs scored 10 tallies in the third. In the fourth frame Earlville found herself completely eliminated as Steward increased her already wide margin by 11 to 8 which made the final 51 to 33.

The Steward scoring-twins, Richardson and Anderson, paced their mates with 16 points apiece. G. Gast and Myers, Earlville guards, led the losers with 9 apiece.

## Training Camps

St. Petersburg, Fla.—Bobby Blatner, slated to become the St. Louis Cardinals' No. 1 infield reserve, believes in starting early to live up to advance notices.

The St. Louis boy whose smooth fielding reminds President Sam Breadon of Napoleon LaJoie, which is quite a lot of reminding—began working out with the batterymen ahead of the full squad, due today.

Lakeland, Fla.—Charley Gehring is listed by the Detroit Tigers as a coach, but don't count him wholly out of active competition.

The 38-year-old "mechanical man" second baseman is looking spry in workouts, and his restoration to the active list would be a mere formality if Jimmy Bloodworth or Dutch Meyer failed to come through at the Keystone sack.

Avalon, Calif.—General Manager Jim Gallagher of the Chicago Cubs predicts that the Cubs and the Cincinnati Reds will fight it out for the 1942 National League pennant unless the armed services draw on the Cubs' key men.

**First Place Knacks Win From Second Place Prince Team**

Hey Bros. and Dohn Team Fall Into Tie For Third

After the Chauffeurs and Helpers League session last night at the Dixon Recreation the Walter Knack bowlers still clung to first place with a goodly margin. The Knack's outfit took two from the Prince Ice Cream team. Fischer rolled a 499 for Knack's best offering and McIntyre with a 429 was high for the Prince bunch.

The Distilled Water Ice bowlers found themselves in the fortunate spot of still retaining the League's second high spot even though dropping three games to the Hey Bros. outfit. D. Hey paced his team to victory with a 534 series and Connaway with a 528 led the losers. This brought the Hey team into a tie for third place with the Dohn Transfer.

The Dohn Transfer won two from the Rock Island Transfer in order to keep a share in the third place position. Burns fronted the Transfer team with 426 as E. Loescher rolled a 493 for the Transfers' high score.

The Old American team won three straight from the Keeshin Motor bowlers. Lessner gave the most aid to the Old Americans with 515 and Hahn tripped 557 pins for the Keeshin's best score.

## Reynolds Increase Hold on Commercial League Lead

### National Tea Remains in Second Place of League

Since the Reynolds Wire bowlers have taken over the top spot of the Commercial League they have been doing their utmost to put the monopoly stamp on that position. As a result they abolished some of the Round-Up's enthusiasm in the race by turning back that club in three straight encounters at the Recreation Alley last night. Nevertheless the Round-Up boys did show the Wires an interesting time for the final margin of victory was not so great, 2886 for the Reynolds team to that of 2836 for the Round-Up. Cy Winebrenner paced the winners with a series of 594 and Vivian carried the brunt of the Round-Up threat with 533.

The National Tea strengthened its hold on second place by defeating the Coca Cola team in three games. Carlson with a 564 series led the Tea team and Kegel rang up a 510 to lead the losers.

Cahill's Electric remained in the third spot of the standings by taking two out of three from Sparky's Fenders; although the Fenders had a higher total series of 2693 to 2648 for the Electric. Smith was high for Cahill's with 503 and Noakes paced the Sparky team with 486.

The Budweiser Gardens took three from the Dixon Telegraph. C. Hoyle bowled high for the Garden crew with 504 and Meyers topped the Telegraph list with a 559.

## SUNDAY SCHOOL LESSON

Parables by the Sea Reveal Deepest  
Significance of God's Work With Men

Text: Mark 4:26-32; Matthew 13:44-50

By WILLIAM E. GILROY, D. D.  
Editor of Advance

One of the remarkable things  
of literature, illustrated in the his-  
tory of practically all peoples, is  
the persistence of truth when it  
is expressed in the form of stories  
or parables. Even where such  
stories are not written, or do not  
become written until a later time,  
they persist from age to age.  
The well-known Fables of Aesop  
offer an example of moral teach-  
ing in story form from secular  
literature, and these have a point  
and freshness for each new gen-  
eration of young folk.

But the great, incomparable ex-  
ample is the parable of Jesus, de-  
voted not merely to moral pre-  
cepts or instructions but to mak-  
ing plain and emphasizing the  
deepest spiritual truth. Nor are  
the parables of Jesus mere analo-  
gies, or statements of resem-  
blances. Analogies are apt to  
fail at some point and to become  
actually misleading, but the  
stories of Jesus were all selected  
and told with a precision that  
made their meaning accurate.  
Take for instance, a parable like  
that of the Prodigal Son. Here  
we have not merely a story of an  
earthly father who was like our  
Heavenly Father, but a story that  
so accurately tells the nature and  
significance of God's grace at  
every point that no question is left  
and no sense of discrepancy.

As is often true of analogies or  
allegories, here in our lesson in  
the "parables by the sea" we have  
five parables illustrating the na-  
ture of the kingdom of heaven or  
different phases of that kingdom.  
Jesus likens it, first of all, to  
seed which a man casts upon the  
earth. But the casting of the  
seed does not assure a crop; it is  
the power of God in nature work-  
ing with man that brings growth  
and makes possible the ultimate  
harvest. Could there be a finer

illustration than this, of the farm-  
er sowing his seed, sleeping and  
rising night and day, while the  
process of growth goes on through  
the forces of nature working with  
him and producing a harvest? It  
is an exact illustration of how  
God works with men, and of how  
men may cooperate with God.

The parable of the mustard seed  
illustrates what we so often see—  
the growth of great and mighty  
things from small beginnings. The  
mustard seed was so small that  
"a grain of mustard seed" was a  
byword at the time for something  
very minute. The reference to  
this seed, growing into something  
"greater than all the herbs" or a  
tree, has puzzled scholars. There  
is a tree called the mustard,  
known to the Arabs, but it does  
not grow in Palestine, and the  
reference would seem to be to a  
bush that grew to a height of from  
eight to twelve feet, on the  
branches of which birds would  
alight to eat the seeds. The de-  
tail is not important; what is im-  
portant is the fact of the im-  
mense growth from the small be-  
ginning. And surely there is no  
better illustration of this than in  
the growth of Christianity itself.  
The parables of the treasure  
hidden in the field and of the  
merchant seeking the pearl of  
great price illustrate the supre-  
macy of the kingdom of God and  
the way in which it must be the  
first and commanding quest of the  
true disciple.

And the final parable of the net  
cast into the sea tells of the king-  
dom of God in relation to the  
world, with the profound oppor-  
tunity of man caught into the  
great net of God's divine grace,  
but with the inevitable separation  
of the good from the bad, as man  
accepts or spurns that grace.

What a full-orbed picture all  
five parables give of the kingdom  
of God and of man's relation to it!

Summers, will preach in the St.  
James church on Sunday morning  
in the worship service.

The Kingdom church is rapidly  
approaching completion. We are,  
however, still worshipping in the  
Riverside school, 1/4 mile north of  
the church.

Dr. Blewfield will preach on the  
subject: "Soul Discipline." This  
is a special message appropriate  
for Lent.

An especial fine program of  
special music has been planned  
for this service as follows:

The Senior choir will sing "Go  
To Dark Gethsemane" (Noble);  
The Treble Clef choir will sing  
"Come to Me" by Beethoven, ar-  
ranged by Aslanoff and Miss  
Betty Mosholder will sing as a  
solo, "Loving Father Hear Us"  
(Compagno). The Junior choir  
will assist in the responses.

Crawford Thomas will preside  
at the organ playing as special  
numbers "Sketch in D Flat"  
(Schumann), "Romance" (Debussy)  
and "Choral" (Bach).

6:30 p. m. The Epworth League.  
This is a service for young people  
conducted by young people.

pastor will bring an appropriate  
communion meditation.

The evening service is evangeli-  
stic in nature with good congre-  
gational singing of the favorite  
gospel hymns, special music, and  
a direct gospel message from the  
Word of God.

A prayer and praise service will  
be the nature of the young peo-  
ple's meeting next Sunday eve-  
ning. It will be in charge of three  
of the young people.

Tuesday evening at 7:45—The  
official board of the Tabernacle  
will meet at the home of the pas-  
tor.

Wednesday evening at 7:30—  
The class for young converts will  
be held at the home of Mr. and  
Mrs. Luther Medder, 517 Van  
Buren avenue.

The mid-week prayer service  
will be held on Thursday evening  
at 7:30 in the Tabernacle.

**ST. PAUL'S LUTHERAN  
CHURCH**  
Lloyd W. Walter, D. D., pastor

Second Sunday in Lent.

The early divine service of wor-  
ship continues regularly every  
Sunday morning at 8:00 o'clock.

The church school which meets  
at 9:30 a. m. is departmentalized  
and is graded to fit any child or  
adult.

Regular divine worship at 10:45  
a. m. This service is enriched be-  
cause of the beautiful liturgical  
responses of versicles, gloria,  
kyrie and Gloria in Excelsis. Dur-  
ing the Lenten season the Halle-  
lujahs are omitted and the Lenten  
sentence is sung instead.

At 6:00 o'clock in the evening  
the Intermediate Luther League  
meets in the Junior room. Marilyn  
Cooper has charge of the lesson.  
Topic, "The Gospel for the Red  
man."

This congregation unites in the  
Lenten Sunday Evening service.  
It will be held at St. Luke's Episco-  
pal church at 7:45 p. m. and  
Rev. Albert H. Keck, Jr., of St.  
John's Lutheran church of Ster-  
ling will be the preacher.

Weekday appointments:

Wednesday, 7:45 p. m.—The  
Midweek Lenten service is draw-  
ing large congregations. A num-  
ber of visitors are enjoying these  
devotional services with us every  
Wednesday night.

The Senior Luther League  
meets the same evening but the  
meeting is held at 7:00 o'clock.

Every Friday during Lent at  
2:30 a devotional service is held  
for all who are able to attend at  
that hour.

Thursday at 2:30 p. m.—The  
Ladies Aid meets.

Saturday at 1:30 p. m.—The  
confirmation class meets.

**THIS BRAN PRUNE  
PUDDING IS TASTY  
AND ECONOMICAL**

**Bran Prune Pudding**  
(12 individuals)

1/2 cup shortening

1/2 cup sugar

1 egg

1/2 cup whole bran cereal

1/2 cup milk

1 teaspoon vanilla extract

1 cup flour

2 teaspoons baking powder

12 prunes, cooked and pitted

Blend shortening and sugar  
well; add egg and beat until light  
and fluffy. Soak bran cereal in  
milk and add flavoring. Sift flour,  
baking powder and salt together,  
and add to first mixture alterna-  
tely with cereal and milk. Put a  
drained prune in bottom of each  
of 12 greased custard cups or  
muffin pans. Fill two-thirds full  
with batter and bake in a mod-  
erately hot oven (375 degrees) for  
about 25 minutes. Serve hot with  
prune sauce.

**Prune Sauce**

1 cup sweetened juice from prunes

1 tablespoon cornstarch

1/2 teaspoon salt

3 tablespoons lemon juice

1/2 teaspoon grated lemon rind

Add juice gradually to corn-  
starch, stirring until smooth. Add  
salt and cook until thick and  
clear. Stir in lemon juice and  
serve hot on bran prune pudding.

## Meditation

This is the second of a series of  
Lenten Meditations to appear  
each week in the Dixon Telegraph  
through the cooperation of the  
Dixon Ministerial Association.  
This one was written by the Rev.  
Charles Enoch, pastor of the Afri-  
can Methodist Episcopal church.

## DYING WITH CHRIST

"I have been crucified with  
Christ; and it is no longer I that  
live, but Christ liveth in me, and  
that life which I now live in the  
flesh, I live in faith, the faith  
which is in the Son of God who  
loved me and gave himself for  
me." Galatians 2:20.

Christianity is an "I in me".  
Religion and charity are charac-  
terized alike—they begin at  
home. Paul in writing to the Ga-  
latian church desires greatly that  
they hold fast to the faith and lib-  
erty and love they were taught  
from the beginning. They were  
to build upon Christ the only  
foundation. We remember the  
words of Peter when he said,  
"Thou art the Christ the son of the  
living God." Jesus replied, "Upon  
this rock I will build my church  
and the gates of hell shall not pre-  
vail against it." Christ said,  
"My Church," but not a personal  
and selfish one. It was a uni-  
versal church for all who have

faith in him. The church is a  
body of people who believe in a  
living Christ. The great need of  
the church today is faith in Him  
who died for the redemption of all  
men—a new man—regeneration,  
a new heart.

Christ stands with open arms to  
receive all who will accept him as  
their personal Saviour. The spot  
that spoils in the heart is the  
heart of the church today is faith  
in Him who died for the redemption  
of all men—a new man—regenera-  
tion, a new heart.

## Employment Officers Here

In response to a request by Secretary Harvey C. Hewitt of the Rochelle Chamber of Commerce, two men from the United States Employment Office located at Chicago, were in Rochelle Thursday. Secretary Hewitt took them to the local cannery factory offices where a shortage of employees is anticipated for this season as the result of full-time defense work in all areas. Many who usually work from southern Illinois, are expected to locate employment nearer home.

Dr. Atwood, interested in the farm labor here, and Mr. Meyers who usually work from southern Illinois, made a survey when here yesterday, and have arranged to return in a week or ten days to complete arrangements. Secy. Hewitt, who has asked for a temporary U. S. employment office to be set up here for the summer months, expects that his wish will be complied with, but there is no definite information to date in regard to that.

## Business Notes

The Rochelle Hatchery, North Washington street, operated by Harold D. Campbell, has arranged to supply farmers with about additional thirteen per cent more poultry and eggs, asked for by the Secretary of Agriculture.

Those who plan to add to the nation's food supply by planting large or small "Victory Gardens" are urged to contact Albert M. Lind as soon as possible.

R. M. Nall has resigned his position as business and advertising manager of the Leader. Harry Ruecking of Litchfield, will assume advertising duties next week. He is now associated with the Litchfield News-Herald daily.

Mrs. Wilbur Antoine is a new employee at the Style Shop, replacing Mrs. Galen Petry who resigned.

## Recruiters Here

Navy recruiters will call at the Rochelle postoffice each Saturday morning at 9:30 a. m. to take interested parties to Rockford, and return.

Army Recruiter Crozier of Dixon has received orders to enlist 9000 men between the ages of 18 and 35. Office hours in Dixon are 8:00 a. m. to 6:00 p. m. daily, except Sunday.

## Travelers

Mr. and Mrs. Fred Gardner have returned from their trip to Florida.

Mr. and Mrs. Klaus Sveta have returned from Los Angeles, where they visited their son, Clarence, who is stationed at an army camp there. They made the trip by streamliner.

Mrs. E. L. Hageman left Tuesday for Louisville, Kentucky, where she will visit several days.

Ordean Rasmussen and Glen Sherwood left Wednesday morning for Sleepy Eye, Minn., on business for the California Packing Corp.

## Fiftieth Anniversary

The Past Matrons are having a tea Saturday afternoon at the home of Mr. and Mrs. George Moore, 614 North Eighth street. Friends and neighbors may call on that day, the fiftieth wedding anniversary of the couple, between the hours of 3:00 and 5:00.

## Changes of Address

Mr. and Mrs. R. R. Slothower have moved into their new home on Eleventh street.

Mr. and Mrs. Ernest Mammen-ga, of North Lincoln highway, have moved to Kings.

## Births

Mr. and Mrs. John Phelps of Bloomington are the parents of a daughter, Leah Frances, born February 17th, at the Brokaw hospital in Bloomington.

Mr. and Mrs. Otis Dicus are parents of a son, George Carl, born at the Lincoln hospital on Friday, February 20th.

On Monday, February 23rd, Mr. and Mrs. Lyman Snyder became the parents of a son born at St. Mary's hospital in DeKalb.

**Council of Defense**  
Last Monday evening opened First Aid instruction for the Industrial Workers, Air-raid Wardens, and Emergency Medical-men. This instruction is under the supervision of Major Tischler of Camp Grant. Captain Lee was the lecturer last Monday evening. Instruction will be given each Monday and Wednesday evening at 7:30 at the high school building. Educational moving pictures, as well as lectures, are the mode of instruction.

Rochelle is very fortunate in being able to secure the services of Camp Grant Army men. Credit for this is due to Dr. Schaller, emergency medical chairman of the local Defense Council.

William Townsend, chief air raid warden, reports sixty-two enrollees in the course. The course is open, however, to anyone interested. Front seats are reserved for enrolled class members.

Major Tischler stated that he was pleased to see civilian defense so well organized in Rochelle. He also stated that army morale was

dependent upon the preparedness of home personnel and organizations to meet emergencies.

It should be understood that the selection of defense officials and workers cannot be completed in a moment's notice. Additions will be made from time to time as the occasion demands. The chief air raid warden stated this morning that to one is being asked to serve in his department merely because of prestige. This is a work where qualifications, efficiency, and dependability are the qualifying factors.

All men on the assigned list will be expected to take courses of instruction when offered, to

further prepare them for the jobs they have to do.

## Chamber of Commerce Notes

By the Secretary.

A gratifying return of hospital questionnaire cards proves that Rochelle citizens are hospital-conscious. The Chamber of Commerce Hospital Committee deeply appreciates this gesture of cooperation. Work is continuing as rapidly as practical.

Custom plays a large part in our lives and out of town shopping easily becomes a custom. A word to accustomed out of town shoppers. Tire shortage, automobile shortage, (and soon gasoline

rationing) may at an early date force you to buy locally. Please don't feel "out of place" in your home stores. Our own retailers do a big business. As retailers, their business is to anticipate your wants and buy accordingly. Their business is to please you and not to check on your outside buying. Rochelle has risen above the "little town" in that respect. Therefore, Mr. and Mrs. Buyer, please remember: you are welcome at home—at your pleasure.

A warning note from the Illinois Chamber of Commerce relayed from the Wisconsin State Chamber of Commerce: "Be on the look-out for a 'Question An-

swered Travel Bureau, Edith Merri-ck, representative." This so-called representative some times gives a Delevan, Wisconsin address and also claims to have a connection with the Daily News of Chicago. Both are false. Her service is a fraud."

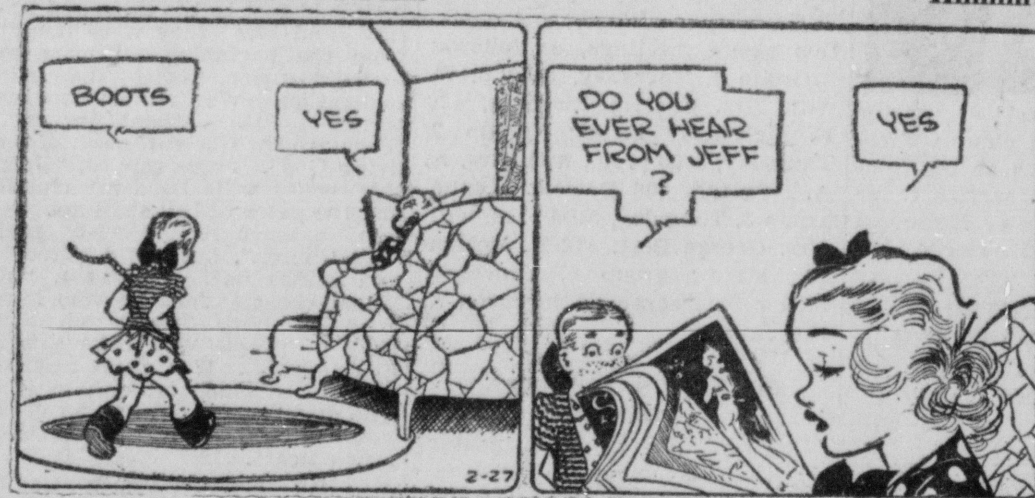

The part that doesn't show is one of the greatest parts of the Chamber of Commerce service. In itself it is probably worth every cent that the community invests in the Chamber because only the Chamber is set up to handle this service. You in your store, home, or office couldn't and wouldn't do it—none of the service clubs could or would do it—the city of-

fices couldn't or wouldn't do it—the schools couldn't or wouldn't do it. The Chamber of Commerce is the Rochelle organization that can and does write the community's letters; answers the community's telephone; waits on the community's customers. (Services to home folks and visitors.)

There you have the part that doesn't show. It is one of the most valuable and important jobs that your Chamber of Commerce does for you; yet it has no glamour; it has no romance; it can't and doesn't make headlines.

Fresh fish is recognized by its bright eyes and gills, shiny scales and firm flesh.

## Washington Grove Bureau

The Washington Grove unit of the Home Bureau of Ogle county met with Mrs. Edison Vogel Wednesday with ten members and five guests present. The roll call was answered with childhood recollections. The business meeting was in charge of Mrs. William Grover. Mrs. Ward Hedrick, the Red Cross chairman will get material for sewing as soon as it is available, as most of the members find time now to do the work. The Illinois farm outlook for 1942 was given by Mrs. Leland Tilton.

## IS YOUR CHILD A NOSE PICKER?

None picking and other signs such as fretting, snicky appetite, restless sleep may mean that your child has roundworms! If you even suspect these awful creatures, get Jantel's Vermifuge right away! Jantel's is America's best known proprietary worm medicine—used by millions for over a century. Acts gently—yet drives out stubborn roundworms. Demand JANTEL'S VERMIFUGE!

The major lesson, "Conserve money and health by preventing the common cold" was presented by Mrs. E. G. Dunne and Mrs. Leland Tilton.

Suggestions were given for lessons the members wished to have in 1942-43. Games were played, led by the recreation chairman, Helen Vogel. Dainty refreshments were served by the hostess. The group adjourned to meet March 18 with Mrs. Ray Worthington.

## R. N. A. Meeting

The Royal Neighbors will meet Thursday, March 15th at the home of Mrs. Gussie Weishaar at 7:30 o'clock. The business meeting will be followed by a social hour.

Mrs. Harry (Pete) Miller has been in Adelina this week assisting in the care of her brother, Henry Dayhoff, who is seriously ill.

The Fellowship society of the Brethren church held an interesting hobby show in connection with their regular meeting Wednesday night.

Miss Jean Merriman has a devil's tongue, or Amorphoph Allus Reveri, a flower native to China and India, in flower at her home. It is described as a rank smelling, carrion-attracting, lily like, has a dirty maroon flower atop a mottled seven-foot stem. The plant has grown as much as a foot a day.

Mrs. Charles Webster entertained Thursday, complimentary to her son's wife, Mrs. William Webster of Milwaukee who is spending the week in the Priller and Webster home. Guests included former co-workers at the Poultry Tribune office.

## WPA Will Be Called to Aid in Farm Work

Chicago, Feb. 27.—(AP)—WPA workers will be called upon to help prevent any shortage of farm labor in Illinois this spring and summer.

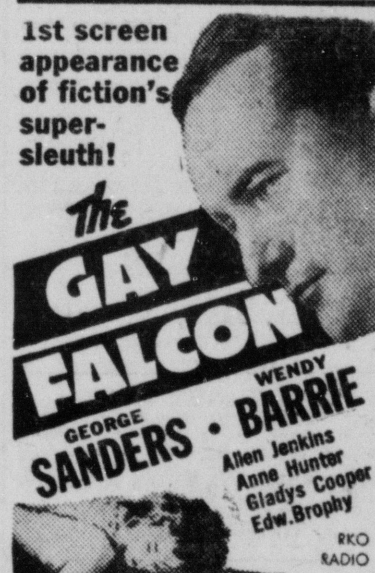

Charles P. Casey, Illinois WPA Administrator, estimated today 5,000 men on state WPA projects have had farm work experience, and announced the WPA would do everything in its power to encourage them to obtain private employment in agricultural fields. He added, "No WPA employees will be allowed to remain on the rolls if they refuse employment at the prevailing wage scale and under reasonable working conditions".
